E-Safety:
Click Clever   Click Safe

The outstanding internet so many great apps and websites, phones and texting, computers and emails. However, with over 100 million users per day there are many hazards to accessing the internet and you are going to find out why.

Before you

T Is it True?
H Is it Helpful?
I Is it Inspiring?
N Is it Necessary?
K Is it Kind?

Social Media

Have you ever posted or shared an image or video you regret taking? Most photos or videos on the internet are very hard to take down or delete. The things you put online can be seen by lots of people and might stay online forever. They are like digital footprints –a trail

that people follow picking up the pieces of information about you. Make sure your privacy settings are restricted because someone might see something you do not want them to see consequently, the whole world could know that post so, share with care

Online Gaming

Do you enjoy playing online games? Chances are, if you do not you know somebody who does. With new technology it is easy to say you are someone else online. So occasionally some of these 'online friends' may be adults who want to hurt you. If you are playing a game where you can chat, make sure you never give out your

personal information, like your address, password or phone number.

5 Top Tips to Stay Safe

<u>S</u>afe: keep safe by being careful not to give out personal information when you are chatting or posting online. Personal information includes your email, address, phone number and password.

<u>M</u>eet: meeting someone you have only met online can be dangerous. Only do so with your parents' or carers' permission and even them only when they can be present.

Accepting: accepting emails, IM messages, or opening files, images or texts from people you do not know or trust can lead to problems, sometimes this results in you being frightened, hacked or even worse.

Reliable: while chatting to people you do not know on the internet, if someone asks you to come to their house, or if they can come over, always go over it with an adult. If you do not know them, think 'but do I trust them'

Tell: always tell an adult if something upsets, frightens or if something is inappropriate for your age.

Click CEOP and ChildLine

CEOP (the child exploitation and online protection command) is a command of the UK's national crime agency –NCA-, and is tasked to stop all child abuse. ChildLine is a free 24-hour counselling service for children and young people up to their 19th birthday in the UK provided by the NSPCC.

So as a result of reading this, I hope you understand e-safety more now, but, if you are still unsure. Do safer internet day 2017 on the 7th February.
